SEEKING SECURITY LEADERSHIP OPPORTUNITIES

Ben is a well-regarded cybersecurity professional, thought leader, and innovator. He has more than 20 years of experience in IT and security, including success developing progressive security architecture and security policy framework solutions in direct support of business objectives.

- ♦ Track record of improving risk resiliency through security architecture design (legacy and cloud), information risk management, and progressive security program management.
- ♦ Demonstrated competency in designing and implementing innovative security programs that promote awareness, behavior change, and shared responsibility, decreasing information risk, and enhancing the overall efficiency and effectiveness of the business.
- ♦ Outstanding leadership capabilities. Demonstrated track record of success coordinating and directing all aspects of project-based security efforts, including initiating and delivering security components and enhancements to meet a wide range of needs, as well as managing.

CORE COMPETENCIES: Security architecture design and assessment (legacy and cloud); application security program management and DevSecOps; data security, data encryption, and enterprise key management; security management; identity and access management (IAM) strategy and architecture; governance, risk management, and compliance (GRC); security education, training, and awareness program development, management, and delivery, including a focus on behavioral information security; security product strategy and market analysis; analyst relations management.

PROFESSIONAL EXPERIENCE

Falcon's View Consulting, LLC

June 2015 to present

Principal

Providing cybersecurity professional services to multiple industries. Project work includes content development, security architecture, security product strategy and development, high-level security assessment and advisory services, specialized security training, and DevOps/DevSecOps architecture.

Pearson, Centennial, CO (remote)

September 2017 to present

Manager, Security Engineering and Architecture

Providing front-line team management over resources responsible for cloud security, container security, and data security, as well as serving as lead security architect for IAM related initiatives, including multi-factor authentication. Worked cross-organizationally to garner consensus and support on key projects and initiatives. Helped remove obstacles for engineers and architects on me team, as well as working across the CISO organization to ensure consistent messaging and objectives.

New Context, San Francisco, CA (remote)

June 2016 to July 2017

Principal Security Scientist

Served in a variable role performing research, product management of in-house development projects, and conducting business development. Efforts included creation of materials around the "Lean Security" methodology, development of presentations for conferences, and writing copy for sales collateral, blog posts, and byline articles. New Context has a focus on secure DevOps services and product development.

BENJAMIN TOMHAVE, MS, CISSP

Ellucian, Fairfax, VA

October 2015 to June 2016

Manager, Information Security Architecture

Evaluated current security processes, tools, and practices as a member of the information security team reporting directly to the CISO. Charged with evaluating the effectiveness of current solutions and identifying gaps in security protection. Developed a comprehensive security architecture framework to evaluate and manage security architecture strategy for both traditional on-premises and cloud environments. Worked with vendors and cross-organizationally to identify, evaluate, and test (pilot) solutions. Technologies evaluated included data loss prevention (DLP), endpoint detection and response (EDR), traditional endpoint security, email security solutions (on-prem and Office 365), enterprise mobility management (EMM), network security tools and capabilities, identity and access management tools and capabilities, application security practices, cloud security tools (such as for AWS) and container (Docker) security tools.

K12, Inc., Herndon, VA

March 2015 to October 2015

Security Architect

As a member of the enterprise architecture team, charged with broad responsibilities to inject security practices into the overall application stack. Reviewed overall environment and developed an incremental roadmap for addressing critical gaps and charting a progressive course to more effective enterprise security over time. Included collaborating with the team driving a DevOps initiative, as well as initiating changes to implement and leverage sec ops automation.

Gartner, Inc., Arlington, VA (remote)

June 2013 to March 2015

Research Director

As a member of the Security & Risk Management Strategies team within Gartner for Technical Professionals, Mr. Tomhave conducted research into topics including risk management, security programs, security planning and management, application security, and SharePoint security. Additionally, he contributed as a speaker at several Gartner and non-Gartner events and webinars. He also delivered advisory services to clients and provided direct support to the sales team, both virtually and in-person, in multiple regions.

LockPath, Inc., Overland Park, KS (remote)

August 2011 to May 2013

Principal Consultant

Hired to perform numerous duties as directed, including:

- **Professional Services:** Delivered consulting services supporting customer implementations of the Keylight platform and suite of applications.
- **Customer Training:** Developed and delivered comprehensive customer training across all LockPath products. Curriculum was tailored to multiple learner styles, including use of visual, auditory, and tactile techniques.
- **Writing:** Produced multiple written pieces, including byline articles and white papers, ranging in length from a few hundred to a couple thousand words.
- **Public Speaking:** Delivered presentations at several security-related conferences, including the RSA USA Conference, Secure360, the Rocky Mountain Information Security Conference (RMISC), the ISC² Security Congress, and the ISSA International Conference.
- **Partner Enablement:** Worked with partners to ensure that they were well supported and able to fulfill their mission requirements as pertained to delivering services related to LockPath products.
- **Other Duties As Assigned:** Completed other activities as assigned, including performing market analysis, providing input on product design discussions, and assisting with security policy development.

BENJAMIN L. TOMHAVE, MS, CISSP

Gemini Security Solutions, Chantilly, VA

May 2010 to August 2011

Sr. Security Analyst, Business Development Management

Experienced consultant hired to develop business relationships and grow client-base. Contributed to billable projects, development of proposals and statements of work, and promotion of the company. Increased company profile through writing and speaking engagements. Provided subject matter expertise in core competencies for use on client projects, internal consulting, contributing to industry groups and initiatives, and overall knowledge development and transfer.

Independent - Various, Fairfax, VA

December 2009 to May 2010

Consultant / Author / Speaker

Worked through a variety of sources to provide security professional services to clients. Engagements and expertise include security and risk assessment, policy development, security program development and management, encryption key management, and secure application development. Client organizations have ranged in size from small to larger.

Foreground Security, Fairfax, VA

October 2009 to December 2009

Senior Security Engineer

Team lead for implementation and project management of a complete security infrastructure upgrade for a large civilian government agency. Helped manage deployment of SIEM, NIDS, HIDS, FISMA tool, and network monitoring tool. Utilized products from Nitro Security, Trend Micro (formerly Third Brigade), Relational Security, and NetWitness.

Highwinds, Phoenix, AZ

January - September 2009

Technical Director of Information Security & Compliance

Recruited to serve as the first full-time security resource for the organization. Objectives included shepherding Payment Card Industry Data Security Standard (PCI DSS) compliance efforts for one Level 2 and two Level 3 merchants. Activities included addressing policy development, data cleanup, security scanning and testing, incident response management, network security, logging and monitoring, identity and access management, training and awareness, and application security.

BT Professional Services, Reston, Virginia

2007 - 2009

Senior Security Consultant

Recruited to serve as a regional security practice lead to assist with the development, qualification, and execution of client opportunities. Led and participated in information security consulting engagements covering the full spectrum of information security, information security management, business consulting, information assurance, risk and compliance, and governance. Developed and delivered internal training programs that enhanced internal capabilities to support and promote the security portfolio. Provided pre-sales support for security-related engagements.

AOL, LLC, Dulles, Virginia

2003 - 2007

Senior Technical Security Engineer

Recruited as an individual contributor for a joint incident response management and security assurance team. Developed the position to take lead responsibilities for information security management, including security assurance, and the training and awareness program. The success of the information security management program, which was later separate from incident response management, resulted in a marked decrease in security incidents and an overall improvement in enterprise risk resiliency.

BENJAMIN TOMHAVE, MS, CISSP

I_TECH Corporation, a subsidiary of First Interstate Bancsystem, Billings, Montana 2003

WAN/Security Engineer

Recruited to take over leadership of a comprehensive network security re-architecture project. Responsible for all aspects operational security within supported systems, including OS and router hardening, perimeter and internal firewalls, AV maintenance, etc.

Sofast Communications, Great Falls, Montana 2001 - 2002, 2003

Senior Systems Engineer

Served as lead systems administrator and secondary network administrator for national Internet Services Provider. Responsibilities included supporting dial-up, broadband and DSL customers for connectivity, email and web hosting. Also provided systems administration to systems used for web hosting and portal services.

ICSA Labs, Mechanicsburg, Pennsylvania 2002

Network Security Lab Analyst

Hired to conduct comprehensive security testing and certification of firewall products, coordinating the resolution of issues with vendors. Testing was conducted in a process-oriented, scientific environment and involved use of common penetration assessment tools, including Nessus, CyberCop, Nmap, hping, nemesiis and tcpdump, among others.

Wells Fargo Services Corporation, Minneapolis, Minnesota 2000 - 2001

Information Security Analyst 4

Recruited to provide technical project management to a team of 30+ engineers throughout the continental United States. Responsibilities included design review, workflow management, special project leadership, and point-of-contact for regular work requests.

BORN Information Services, Minnetonka, Minnesota 2000

Senior Security Consultant

Recruited to help co-lead a new information security consulting practice that provided clients across multiple industries with technical professional services. Offered services included networking, information security and server administration. Practice development included development of a unique methodology for implementing an information security program. Responsibilities included provided pre-sales support to account executives as well as assisting with the identification, development, and qualification of sales leads.

Ernst & Young LLP, Minneapolis, Minnesota 1999 - 2000

Senior Security Consultant

Recruited to perform and lead IT audits, including documenting and providing expert analysis of system and network security. Audit and security assessment findings, sometimes based on SAS 70, included business-justified recommendations for remediation.

International Network Services, Chicago, Illinois & Minneapolis, Minnesota 1998 - 1999

Associate Network Systems Engineer

Provided network professional services to a variety of clients in the Chicago, Illinois, and Minneapolis, Minnesota, metropolitan areas. Services included troubleshooting, network design and implementation, and fulfilling numerous other network administration functions on behalf of customers.
